## NS United Kaiun Group Began Using Renewable Energy at the Headquarters Business Site

NS United Kaiun Group (hereinafter “We”) began using renewal energy other than air conditioning on November 2021 at the headquarters business site, and is expected to reduce CO<sub>2</sub> emissions by approximately 120 tons per year.

Going forward, we will strive to achieve carbon neutrality throughout the entire group as stipulated in our Group Environment Policy, and contribute to respond to climate change through these activities by all the staff, on shore and at sea.
